

NGUYEN MINH NHAT

FULLSTACK DEVELOPER

PROFILE

Full-stack Developer with hands-on experience building applications across both frontend and backend. Comfortable developing user interfaces, APIs, business logic, and database-driven features, with a strong focus on clean, reliable, and practical solutions.

PROJECTS

Restaurant Ordering & Management System

React · Node.js · PostgreSQL · Redis · Socket.IO · Docker

- Built a multi-tenant restaurant ordering platform supporting table, online, and takeaway orders.
- Developed real-time order workflows between customers, waiters, and kitchen staff using Socket.IO.
- Designed REST APIs and role-based access control for restaurant staff and administrators.
- Implemented restaurant, menu, table, order, and staff management with PostgreSQL.
- Containerized and deployed the application using Docker.

Live Demo: <https://demo.datmonngon.com>

E-commerce Platform

Next.js · Node.js · Express · MongoDB · Redis · Cloudinary · Docker

- Built a multi-vendor e-commerce platform supporting product browsing, shopping carts, checkout, shop management, and administrative workflows.
- Developed REST APIs for authentication, products, carts, checkout, discounts, inventory, reviews, and shops.
- Implemented discount rules, inventory management, product ratings/reviews, and Redis-based inventory locking during checkout.
